

“JMR Tiles & Machinery” is a Sole Proprietorship (Individual) based firm, registered in the year 2012. We are engaged in Manufacturing and Supplying arrangement of Cement Block Brick Making Machine, Iron Oxide Powder, Paver Block Lacquer, Plastic Paving Block Mould, Chequered Tile Mould, Industrial Pan Concrete Mixer, Concrete Table Vibrator, etc. These products are manufactured in our high-tech manufacturing unit using supreme grade raw material. With the core value of transparency and uprightness, we are building a collaborative platform for ourselves in the market. Our company is facilitated with all kinds of requisites for qualitative production.

Our VISION

We at " JMR TILES & MACHINERY " see ourselves and take pride in to be a manufacturer of high-quality products like Interlocking tiles making machine, Paver Block Making Machine, Plastic Moulds, PVC Moulds, Chemical Hardener's and other relevant Products. We therefore prefer to rely on an own production to make sure our customers receive "QUALITY PRODUCT'S". High quality manufacturing training of Paver Block , Interlocking Tiles And other concrete products for our well Trends "Engineer's , as well as the deployment of modern technology for our production, are our answer to meet the high demands of our customers.

One major advantage of our high level of our machinery and products next to the capability to monitor and control the quality of our products ourselves, is our capability to react fast and in an extremely customer-oriented manner to any special individual requirements any of customers might have. Based on this very customer-oriented approach, the majority of our paving machines are manufactured under consideration of various customer-provided specifications, e.g. regarding the machinery equipment, cabin equipment, or even a customer-specific coating, which are directly and immediately realised within the production itself. The subsequently generated machine is therefore ready for the respective customer's paving site the very moment it is delivered.

Our VALUES

PRODUCT LIST.

- Vibration Table
- Concrete mixture machine
- Pan Concrete Mixture Machine
- Colour Mixture Machine
- Pan Colour Mixture Machine
- Demoulding Machine
- Supporting Table
- Silicone Plastic Mould
- PVC Rubber Mould
- Chemical Hardener
- Waterproof Ply
- Iron Colour Oxide

VIBRATION TABLE MACHINE :-

This vibrator has a powerful vibrating unit on its rigid table. It is used mainly to load and foam freshly mixed concrete for U-shaped grooves, boundary blocks, bricks , paver block , interlocking blocks , flyover bricks , blocks , concrete bricks , and etc.

SIZE AND CAPACITY OF MOTOR :-

- 8X2.5 Motor Capacity (3 HP)
- 10X2.5 Motor Capacity (3 HP)
- 10X3 Motor Capacity (3 HP)
- 11x2.5 Motor Capacity (3 HP)
- 11x3 Motor Capacity (3 HP)
- 12x3 Motor Capacity (4HP)

CONCRETE MIXTURE MACHINE :-

A **concrete mixer** (often colloquially called a **cement mixer**) is a device that homogeneously combines [cement](#), [aggregate](#) such as sand or gravel, and [water](#) to form [concrete](#). A typical concrete mixer uses a revolving drum to mix the components. For smaller volume works, portable concrete mixers are often used so that the concrete can be made at the construction site, giving the workers ample time to use the concrete before it hardens. An alternative to a machine is mixing concrete by hand. This is usually done in a wheelbarrow; however, several companies have recently begun to sell modified [tarps](#) for this purpose.

CAPACITY LEVEL :-

- 1.5 Bag Capacity
- 5 HP Motor

COLOUR PAN MIXTURE MACHINE :-

With a production capacity of 1.5 bag per batch, these are ideal for different construction sites. The **colour** mixers are also known for low power consumption, easy operation , easy to install .

Capacity Level :-

- 1 Bag Capacity
- 1.5 Bag Capacity
- 3 HP Motor

LACQUER POLISH :-

Lacquer polish is used for shining of chequered **tiles**, **interlocking tiles** and paver block. It helps in getting a high gloss finish and renders waterproofing properties to chequered **tiles**, **interlocking tiles** and paver block. **Lacquer polish** is available in natural and colour **polish** - Red, yellow, black and white.

DEMOULDING MACHINE :-

Manufacturer of **DEMOULDING MACHINE** - Semi Automatic **Demoulding Machine**, Plastic Paver **Demoulding Machine**, Paver **Demoulding Machine** offered by Ever on Impex , Coimbatore, ... Vibrators Tables · Designer Paver **Machine** · **Interlocking Tile Making Machine** ... This **machine** can be **used** as a **demoulding**..

SILICONE PLASTIC MOULDS :-

“Silicone plastic mould“it is use for making Interlocking blocks,concrete blocks,tiles or bricks. We use highly quality of silicone plastic for these Mould.

SIZE :-

- 60MM
- 80MM

PVC RUBBER MOULD :-

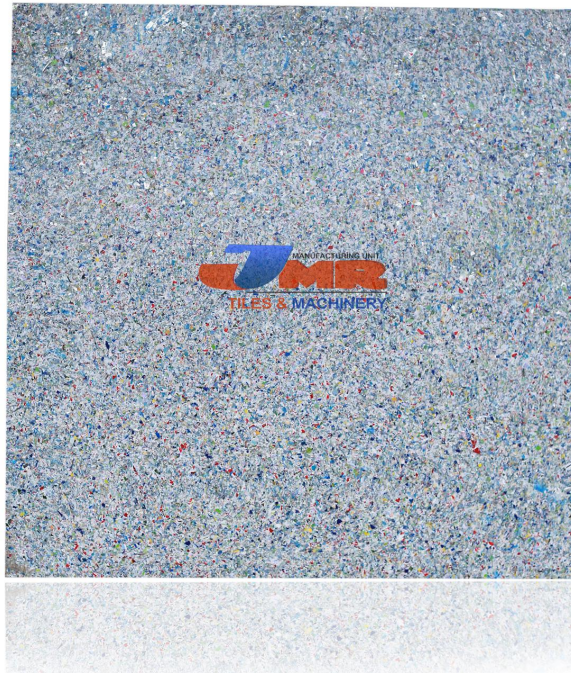

“PVC Rubber Mould” the leading manufacturers of Rubber is PVC moulds to manufacture concrete Products such as paver Blocks , Designer tiles, Chequered tiles, Kerb stones, Slabs Stones, Wall tiles, Floor tiles, Drainage pipes, Wall Claddings , Cable ducts, Grass pavers , Drain covers, Door frames, Windows frames and so on. The company supplies pvc moulds on a large scale in various Size and designs as per customer's requirement .

SIZE :-

- 60MM
- 80MM

WATERPROOF PVC SHEET :-

JMR Tiles & Machinery offer a PVC sheet that is an amazing asset to your business construction needs. Our unique recycled material has many advantages and is also sustainable in regards to the environment. The recycled plastic sheet is made from waste PVC and turned into a versatile construction product. We can provide a sample of our unique material if needed and we're used to meeting even the most specific of requests.

It is extremely durable considering its weight, has insulation properties and comes in various sizes and thicknesses to suit your specific needs. It is white as standard but then can be painted. Here at we're dedicated to providing practical products that are environmentally friendly.

IRON COLOUR OXIDE :-

Manufacturer of Tile Making Machine - **Interlocking Block Making Machine, Interlocking ... Iron Oxide Colour.** This is used for making Concrete **Interlocking Tiles, Cement Tiles Making Machine.** At our production unit, this is manufactured using high class components and ultra-modern techniques in adherence to **defined ...**

Owner Of JMR Tiles & Machinery:-

Under the proficient management of our mentor , **Mr.Rahish Khan**,we Have arnedanunrivaledpositioninthemarketandgainedmassive Acceptance of our esteemed customers.Our company is based on the Grounds of moral values ,principles,and ethics which are lead your mentor.
